

## **Snowshoe Mountain Drone Policy**

Out of safety concerns for guests, employees, and resort property, as well as concerns for individual privacy, Snowshoe Mountain strictly **prohibits the operation or use of unmanned aerial systems**, or drones, by the general public – including recreational users and hobbyists. This prohibition includes drones used for filming or videotaping on Snowshoe Mountain Resort property. This prohibition on drone operations or use extends **to any drones launched or operated from Resort property, as well as drones launched from private property outside of Snowshoe Mountain’s boundaries**. The use of **commercial drones is only permitted with the express written consent of Snowshoe Mountain**. Commercial use includes, but is not limited to, drone use by media or journalists operating above or within Snowshoe Mountain’s boundaries.

Any violation of this policy may involve **suspension of your participation in resort activities, the revocation of your season pass, or your lodging at a Snowshoe facility, as well as confiscation of any drone equipment, and may subject violators to any damages, including, but not limited to, damages for violations of privacy and/or physical or personal injuries or property damage, as well as regulatory fines and legal fees**. Please contact the **Snowshoe Mountain Risk Management Department at 304-572-5895** if you have any questions or if you seek prior authorization to operate any aerial drones.
